HAPPINESS

IFFCO’s principal activity segments consist of a comprehensive range of business lines which cover the entire spectrum of consumers’ daily needs.
CHOCOLATES, CONFECTIONERY AND WAFERS

IFFCO's confectionery is the hallmark of excellence in quality and premiumness in the product. The finest ingredients meet years of expertise to deliver a unique chocolate experience - in a range of toffees, candies, wafers and eclairs. The same luxury in taste is delivered across brands like Tiffany with its ensemble of sub-brands, and exclusive upscale brands like Les Chocolats Allier with its array of rich, creamy and super smooth chocolates.

SNACKS

Our Tiffany snack food range includes potato sticks and corn chips in many flavours, sizes and shapes. Options spread across extruded, ready-to-eat baked and fried snacks. With such a great choice and convenient packaging options for every need, our snack food range caters to consumers of all ages.

BISCUITS AND CAKES

IFFCO's Tiffany, Picadelli, Tom and Nabil range of biscuits are trusted household names in the United Arab Emirates, Arabian Gulf Cooperation Countries and Middle East & North Africa regions. Easily recognisable taste and excellent quality have enabled us to achieve success in several international markets. Our portfolio features a wide range of quality biscuits for the whole family. These include Sandwich Cream, Milk, Nice, Marie, Tea Biscuits, Petit Buerre and Cracker Biscuits – Tiffany Bites, a delectable variety of Activ Digestives, Delights – Fruit Rolls, Butter Cookies, Premium Biscuits as well as Sugar Free Biscuits. IFFCO has also introduced a range of premium cakes in several flavours.

CUSTOMER DELIGHT
IMPULSE FOODS Building brands that delight and amaze the consumer
London Dairy Cafés further enhance the brand experience. In the popular ice cream segment, IFFCO's Igloo and Quanta brands continue to reign with over 30 years of consumer familiarity and acceptance. Available in a wide and delicious range, they cater to the needs of consumers covering varied occasion and lifestyle requirements. Igloo is also available in low-fat and sugar-free options.

ICE CREAMS

IFFCO is an established leader in the United Arab Emirates and other countries in the Arabian Gulf. Our London Dairy range is an undisputed frontrunner in the premium ice cream segment. Made from the finest ingredients sourced from all over the world, London Dairy is available in a variety of exciting flavours and serving sizes. Its 'Healthy Lifestyle' range includes Yoghurt and LITE varieties which offer low-fat and sugar-free ice cream.

Available in a wide and delicious range, they cater to the needs of consumers covering varied occasion and lifestyle requirements. Igloo is also available in low-fat and sugar-free options.
In response to consumers' growing taste for Italian cuisine, IFFCO offers a wide range of pasta products including vermicelli, spaghetti and macaroni. Our pastas are made of high quality durum wheat, and are exported to the rapidly developing markets of Asia, Africa, Europe and North Africa. Our brands are Alfa Pasta, Hayat Macaroni, Pastaxpress, Sanmarco, Solare, Domino and Tiffany.

IFFCO's flour and edible oil activities provide the foundation for our animal feed range. These are manufactured at our facilities in the United Arab Emirates and Malaysia. Our Unifeed range covers feed formulations for poultry, dairy, sheep, goats, camels, horses and zoo animals. We also produce custom formulations to meet specific requirements of farms and animals. IFFCO offers several speciality flour.

IFFCO's Al Baker Chakki Fresh Atta (stone ground) flour answers the need of Asian consumers in the Middle East for high quality packaged flour while retaining the wholesome, old world flavour of freshly milled flour. Our white flour offering is developed to meet the preferences of Arab consumers for use in pastries, sweets and other bakery products. Going beyond the Middle East, IFFCO's Swarna Chakki Fresh Atta has won instant following in niche markets in the United States and other countries around the world.

Spanning the divide… between farm and table products for dairy and poultry. Among them is the 'Energizer range of Rumen-Protected Fats for Dairy Cattle' and 'Unimixx Vitamin Mineral Premixes'. A well equipped laboratory, managed by highly trained personnel, ensures that the highest quality standards are consistently maintained.
PASTA
In response to consumers’ growing taste for Italian cuisine, IFFCO offers a wide range of pasta products including vermicelli, spaghetti, and macaroni. Our pastas are made of high quality durum wheat and are exported to the rapidly developing markets of Asia, Africa, Europe, and North Africa. Our brands are Alfa Pasta, Hayat Macaroni, Pastaxpress, Sanmarco, Solare, Domino and Tiffany.

FEEDS
IFFCO’s flour and edible oil activities provide the foundation for our animal feed range. These are manufactured at our facilities in the United Arab Emirates and Malaysia. Our Unifeed range covers feed formulations for poultry, dairy, sheep, goats, camels, horses and zoo animals. We also produce custom formulations to meet specific requirements of farms and animals. IFFCO offers several speciality products for dairy and poultry. Among them is the ‘Energizer range of Rumen-Protected Fats for Dairy Cattle’ and ‘Ultimate Vitamin Mineral Premixes’. A well equipped laboratory, managed by highly trained personnel, ensures that the highest quality standards are consistently maintained.

FLOUR
IFFCO’s Al Baker Chakki Fresh Atta (stone ground) flour answers the need of Asian consumers in the Middle East for high quality packaged flour while retaining the wholesome, old world flavour of freshly milled flour. Our white flour offering is developed to meet the preferences of Arab consumers for use in pastries, sweets and other bakery products. Going beyond the Middle East, IFFCO’s Swarna Chakki Fresh Atta has won instant following in niche markets in the United States and other countries around the world.

WHOLESOME QUALITY
AGRI BUSINESS Spanning the divide… between farm and table
For over 35 years, IFFCO's Fruit & Vegetable division has imported and distributed a wide variety of produce in the United Arab Emirates market. We offer a range of vegetables and fruits from all over the globe. Our local distribution serves hypermarkets, supermarkets and the hospitality segment.

EGGS AND CHILLED POULTRY
Khaleej and Omegga are our market leading brands of regular and enriched eggs while Al Khazna and Rayaf are brands for fresh Halal chicken meat. All these are produced at our own poultry farms. We ensure optimum safety, hygiene, taste and freshness through careful control of all aspects of the process. Utmost care is taken to preserve the tenderness and taste in the most natural way possible.

PULSES
To cater to the ever-increasing consumer demand for premium quality, nutritious and hygienically processed food products, IFFCO processes and markets lentils and pulses like Masoor Dal, Chana Dal, Moong Dal, Urid Dal, Toor Dal and Yellow Split Peas - under the brand Hayat in the Gulf Cooperation Council market and Swarna in the overseas market.

Pulses are increasingly being recognized for promoting good health and regular consumption of pulses is reported to reduce certain health risks. IFFCO's pulses brands are increasingly becoming household names.
FRUITS & VEGETABLES
For over 35 years, IFFCO’s Fruit & Vegetable division has imported and distributed a wide variety of produce in the United Arab Emirates market. We offer a range of vegetables and fruits from all over the globe. Our local distribution serves hypermarkets, supermarkets and the hospitality segment.

Synergising our vision with that of the health conscious consumer

FRESHNESS
For over 35 years, IFFCO’s Fruit & Vegetable division has imported and distributed a wide variety of produce in the United Arab Emirates market. We offer a range of vegetables and fruits from all over the globe. Our local distribution serves hypermarkets, supermarkets and the hospitality segment.
Today's consumers look for fast and convenient yet tasty meal solutions. IFFCO's Al Baker and Khaleej brands of frozen dough products tap into this growing market need. Our range features frozen parathas, ready-to-bake pies and pastries. Our various formulations appeal to international and regional tastes and palates. Halal certified products that add to the taste and fun of good food.

We specialise in a full line of frozen seafood items and all species of fresh fish and shellfish. These are hygienically processed in our state-of-the-art, FDA and EU certified processing facilities. Beyond the regional Middle East markets, our products reach renowned retailers in North America and Europe. Our IQF product range includes breaded, smoked and peeled varieties. These are offered in private label and house brand formats.

IFFCO manufactures and distributes a wide range of bakery ingredients tailor-made for artisan and industrial bakeries. We develop and formulate products to suit specific applications. We offer a wide range of speciality ingredients for fermented goods and flour confectionery, like breads, croissants, sponge cakes, pizzas, doughnuts and dessert mixes. Our highly advanced manufacturing facility is supported by an independent research and development centre which offers cost effective and customised solutions through collaborative interactions and dialogue with customers.

IFFCO's Khaleej and Hayat brands of frozen meats and poultry products enjoy a significant market presence in Middle East & North Africa markets. Our product range is not limited, as proven by Khaleej which has a line exclusively for children called Super Nuggets. Our entire range is Halal certified. The principal products are red and white meat burgers, breaded meats, sausages, samosas and spring rolls. We successfully cater to requirements in retail, institutional and food service segments.

OILS & FATS
Wherever good food happens, we are there - unseen

INDUSTRIAL FATS
IFFCO is a major global producer of oils, fats, speciality fats, vegetable shortening, specialised shortenings, margarines and butter. With over 30 years of experience, state-of-the-art ISO 9002 and HACCP accredited manufacturing units, and an in-depth understanding of dynamics of the edible oils industry, we produce a wide range of premium products for the food, feed, health and technical industries.

RETAIL
IFFCO is one of the world's largest edible oil and fats manufacturers with refining and processing facilities in several countries across Asia, Middle East & North Africa, and India. Our products are designed to meet all types of consumer health, taste and cost expectations. We offer high quality products spanning olive oil, sunflower, canola, corn, palm and vegetable oils, vegetable ghee, pure ghee, margarine, butter and shortening.

Noor, our acclaimed sunflower oil brand, Amber canola oil and the Rahma olive oil range are preferred choices of informed and health conscious consumers who need low cholesterol and transfat free cooking mediums.

Applications include manufacture of biscuits, fried snack foods, confectionery, cheese, chocolates, bakery, ice cream, margarine, food service, spray drying, animal feed, cosmetics and paints. Strict adherence to exacting quality standards has won IFFCO the distinction of being the chosen supplier of cooking mediums to global and regional fast food chains.

PERSONAL CARE

IFFCO's soap brands are developed with a sound understanding of consumer preferences of lather, feel, fragrance and cosmetic appeal. Our products are formulated with a discerning eye on culture-specific choices and sensitivities. IFFCO brands win consumer approval in the Middle East, African, CIS and select Asian markets with a well targeted product range and aesthetic presentation. Prominent brands are Savannah, Royal Lather, Eva, Lace, West, Prism and Solar. We are offering multi-purpose and laundry soaps to serve highly cost sensitive markets. We also offer a new product range of liquid cosmetic products under the Savannah range: Shampoos catering to various hair types, shower gels, and hand wash offering varied benefits with different extracts and perfumes.

CULINARY

IFFCO completes its role as a leading food and beverage player by offering a popular range of culinary products. These include ketchup and sauces, mayonnaise, dressings and vinegar, designed and packaged for both kitchen and table use in consumer-friendly packaging. These are marketed under popular brand names such as Noor, Tiffany, Hayat and Alfa.

SPICES

IFFCO sources and processes the finest spices for the global market. Our spices come from India, herbs land from France, and we pack the natural goodness of our products with advanced technology from Europe. We use pure and natural ingredients to help each product retain its distinctive attributes. Flavours of Arabia is gaining popularity among households in the Gulf Cooperation Council market.

BEVERAGES

IFFCO premium Tiffany powder beverage has a great following because of its unique taste, developed over the years. Kids simply love its fruity taste while the essential vitamins deliver nutrition. Taking the lead with healthy and vital products to match consumer's lifestyles.

To support our large and varied packaging requirements, IFFCO has established a strong presence in select packaging and industrial products. Our demonstrated capability and strong performance has attracted third party customers to significantly grow our presence in this field. IFFCO's corrugated box plant produces liners, shipping cartons, die-cut boxes, trays and blanks, micro flutes, POP displays and speciality fitments.

IFFCO is a market leader in the supply of PET pre-forms and related closures to carbonated beverage and mineral water bottlers in over 40 countries across the Middle East, Africa, Australia and the Far East. Other segments served are juices, edible oils and dairy products. The other products include blow moulded plastic bottles, containers and packaging-delivering quality to help retain the freshness of jars and other packaging solutions for the plastic converting industry, and a range of PVC compounds for various applications. Our tool room makes precision dies, moulds and related fixtures, providing speciality workshop services to our group companies.

Our tool room makes precision dies, moulds and related fixtures, providing speciality workshop services to our group companies.
DISTRIBUTION COMPANIES

IFFCO’s vision to become a leading FMCG company in the Middle East & North Africa region is now a reality, ably supported by its own distribution companies and networks in United Arab Emirates, Oman, Kuwait and Saudi Arabia. Warehouses at key locations, dedicated transportation fleets and cutting edge technologies like the Oracle Transport Management System enhance operating efficiencies and higher service levels. IFFCO’s distribution network plays a pivotal role in enabling shelf supremacy, ready availability, increased market penetration, brand activation and superior services at all market levels. IFFCO’s distribution companies ensure efficient logistics across the region.

FOOD SERVICES

IFFCO Food Services currently supplies quality products ranging from oils, flours, sauces including mayonnaise and ketchup, and bakery ingredients to thousands of customers, including hotels, fast food chains, caterers and restaurants. We add value through customised solutions that improve taste and contribute towards profitability for the brand owner. Today, IFFCO Food Services is a supplier of choice, recognised for our professional competence, transparent dealings and superior service. Building on our strong credentials, we actively support Culinary Guilds across countries and use this forum to introduce our products to senior chefs and share our expertise with end users in the HORECA segment.

INTERNATIONAL PRESENCE

Our quest for fresh markets is fuel for investing in the future.

From its headquarters in United Arab Emirates, IFFCO has focused on strengthening its presence in the Middle East markets. While IFFCO’s traditional markets in the Arabian Gulf Cooperation Council continue to be served from United Arab Emirates, we have set off on a bold search for fresh geography to fuel rapid and accelerated growth in select businesses.

OMAN

Atyab IFFCO Poultry LLC is an equitable joint venture between IFFCO Poultry Company Limited and Atyab Investments LLC, the investment arm of Oman Flour Mills SAOG, Oman. It has majority shareholding of Sohar Poultry Company SAOG, a publicly listed company based in Sohar, Oman and engaged in a fully integrated poultry operation comprising of a feedmill, a parent bird farm, a hatchery, broiler farms, processing facilities and distribution.

IFFCO is a majority shareholder in National Biscuit Industries Limited SAOG (NABIL), which was established in 1982. NABIL is a joint stock company which manufactures biscuits, wafers and snack food products in the Sultanate of Oman under the brands Nabil, Oryx and Trents.

EGYPT

IFFCO Egypt is one of the largest edible oil and fats refining and processing companies in North Africa, serving Industrial, Institutional, Retail & Quick Service Restaurant (QSR) clients in Egypt, Middle East, North Africa and Levant markets. The product range includes vegetable oils, ghee, natural butter, shortenings and margarine. Major brands are Sunny, Amira, Marzouka, Fern butter ghee and IFFCO Star.

TUNISIA

L’Appetissante, a wholly owned IFFCO subsidiary in Tunisia, manufactures and markets renowned brands Tom and ChocoTom. Key markets include North and West Africa and Southern Europe.

Compagnie Generale Des Industries Alimentaires (COGIA SA), Tunisia’s leading processor of olive oil, is the first packed olive oil exporter supplementing IFFCO’s product range in the United Arab Emirates.

KINGDOM OF SAUDI ARABIA

Delmon Products Limited has a fully integrated edible oil refining and filling unit with in-house facilities for manufacturing of packaging. The unit supplies edible oils to retail and food industries. It has several offices and warehouses across the country to handle brands like Noor, Hayat, Tri Star, Sunny and Alfa.

Dilmun Products Limited has a fully integrated edible oil refining and filling unit with in-house facilities for manufacturing of packaging. The unit supplies edible oils to retail and food industries. It has several offices and warehouses across the country to handle brands like Noor, Hayat, Tri Star, Sunny and Alfa.

**TUNISIA**

L’Appetissante, a wholly owned IFFCO subsidiary in Tunisia, manufactures and markets renowned brands Tom and ChocoTom. Key markets include North and West Africa and Southern Europe. Compagnie Generale Des Industries Alimentaires (COGIA SA), Tunisia’s leading processor of olive oil, is the first packed olive oil exporter supplementing IFFCO’s product range in the United Arab Emirates.
Global outlook helps to deliver added value to customers

PAKISTAN
IFFCO, Pakistan is a principal player in the country's edible oils and fats market. Located inside Port Qasim, it is the largest edible oil refinery in the country, processing, packaging and marketing cooking oil, fats and margarine. Major brands are Golden Sun, Evian, Aghaaz, Sunny and IFFCO Star.

MALAYSIA
FELDA IFFCO SDN BHD, a joint venture between FELDA Global Ventures (the largest palm plantation house in the world) and IFFCO, is engaged in the refining, processing, packaging and marketing of palm and palm kernel based products for retail and industrial use. Strategically located at Port Klang it has fully integrated facilities for refining, fractionation, hydrogenation and production of shortening and margarines. This joint venture provides a unique completion of the entire value chain from plantations, milling, refining, processing and branding of a wide range of edible oils and fats. We have extended our reach by establishing refining and processing activities in the USA, South Africa, China, Indonesia and Turkey.

FELDA Oil Products SDN BHD is majority owned by FELDA IFFCO along with other shareholders - Mitsui and Company Limited, Japan and Adeka PTE Limited, Japan. It is a bulk oil facility to refine fractionate palm oil, palm and palm kernel oil.

BORDERLESS BENCHMARKS

Global outlook helps to deliver added value to customers
PT Synergy Oil Nusantara (PT SON) is a joint venture with FELDA IFFCO SDN BHD and Tabung Haji of Malaysia. It is strategically located adjacent to Port Batam, Indonesia. PT SON is a bulk oil facility to refine, fractionate palm and palm kernel oil.

FELDA IFFCO France SA is responsible for coverage and sales of bulk oils to all areas located to the west of Suez Canal, including Africa and the Americas. It identifies new markets and investment opportunities in line with the IFFCO Group's strategy and organises the marketing of oil products manufactured by the Group's refineries in Asia.

FELDA IFFCO Gida Sanayi Sanayi ve Ticaret A.S, Izmir, is positioned as innovative and value-added edible oil product manufacturer in the sector. It has refining and packing facilities for different types of vegetable oils. This facility manufactures specialized fats and margarine for bakery, food service and industrial customers.

Australian Agricultural Company, of which IFFCO is the single largest shareholder, is included in the S&P 200 listing on the Australian Stock Exchange. It is the largest beef cattle producer in the country with a land holding of over 7 million hectares. It runs a herd of half-a-million head of cattle, processed for a range of uses from prime cuts for restaurants to processed meat for supermarkets.

FELDA IFFCO South China Ltd., located near the modern port of Xinsha in the People's Republic of China, has two very advanced refineries and the second largest tank farm in South China. Facilities spread across over 65,000 square meters. All bulk storage tanks are isolated and have the unique privilege of being granted a special bonded status by the Department of Customs in China. The company manufactures and markets a range of edible oils and fats including shortenings and specialty fats for the large and growing Chinese market.

INTERNATIONAL STANDARDS
Efficient procurement, handling and storage of bulk raw materials is a critical prerequisite for IFFCO. We have developed a core knowledge and experience base in procuring bulk raw materials from international markets. Our team of seasoned professionals assures an optimal buying programme in relation to prevailing global market trends.

IFFCO has made substantial investments in storage, infrastructure and material handling facilities to support its scale of activity. Our material handling and storage sites enjoy the strategic locational advantage of being situated within or in close proximity of seaports with silo and tank facilities within 100m of ocean going vessel berths. Port Khalid and Hamriyah in the United Arab Emirates, Yanbu Port in Saudi Arabia, Adabiyah on the Red Sea and Damietta on the Mediterranean Sea in Egypt, Port Qasim in Pakistan on the Arabian Sea, Port Klang and Pasir Gudang in Malaysia, Batan in Indonesia and Xinsha on the South China Sea house some of our facilities. We use highly sophisticated, automated vessel unloading facilities including quay located ship unloading, underground ship-to-silo conveyor systems and mobile ship-to-tank piping arrangements. These facilitate rapid, efficient and extremely cost effective material handling operations with negligible manual intervention.

LOGISTICS

IFFCO has built strong in-house capabilities in a wide array of logistics services including ship chartering, shipping agency, freight forwarding, transportation services and warehousing. This strategic initiative ensures smooth, reliable and optimal flow of our products to markets.

SHIPPING

IFFCO's bulk commodity procurement program is complimented by our ship chartering team, which scouts international markets for cost efficient bulk freight contracts. Our shipping agency service ensures prompt and efficient attention to vessel unloading. We bridge the distance from packaging to warehousing, surface transportation to shipping requirements. IFFCO's centralised freight forwarding activity is designed to facilitate timely and cost effective movement of all material inputs and finished products.

ROAD TRANSPORTATION

We manage and own an extensive overland transportation network of over 500 commercial vehicles covering the Middle East and Levant regions. Special purpose carriers – grain hoppers, refrigerated trailers, curtain siders, feed trailers and bulk tankers meet the needs of institutional customers.

Quality is an important aspect of all that we practice, produce and promote. IFFCO's manufacturing sites feature contemporary quality assurance laboratories and on-line testing facilities in keeping with current industry standards. These are managed by highly proficient, motivated and empowered quality vigilance teams which ensure that stipulated quality goals are routinely met. Quality programmes at our principal manufacturing locations conform to the latest ISO standard. These have been evaluated by independent certification agencies. IFFCO's Hazard Analysis and Critical Control Point (HACCP) programme is of great significance to our food and beverage manufacturing operations. Under this scheme, sensitive ingredients, critical process control points and related human factors are monitored on a continuous basis to eliminate health risks and ensure acceptable product quality. We establish exacting standards to define acceptability of material inputs and end products. These standards are strictly met through exclusive dealings with vendors and service providers with proven capabilities to meet our stringent expectations.

**EXCELLENCE CENTRE**

The Centre focuses on R&D in oil modification, structured lipids, oil stabilisation, emulsions, and nutrition and product applications. Its ISO 17025 accredited laboratories are equipped for the latest instrumental analysis of lipid composition and physical properties determination to support new product development. The Centre is supported by an elaborate, advanced kitchen to test, develop and benchmark quality for new product innovation. The kitchen is also used to train key stakeholders including employees and customers. In addition, the Centre houses pilot plants for product development and simulation of processes. Among these are a bakery, plants for oil refining, hydrogenation, fractionation, inter-etherification, margarine, shortening, chocolate, fillings, whipped creams, ice creams and fried products.
We believe in combining a deep understanding of consumer needs with appropriate product development.
